Botox

Botox is one of the best known and most popular non-surgical treatments for treating lines and wrinkles caused by smiling, laughing and frowning. It is used to prevent the muscle contractions that cause furrows and fine lines when the face is making expressions. Botox is used in an artistic way to restore a relaxed and more youthful appearance to the face.

The treatment is safe and virtually painless and results are visible within three to ten days, lasting for three to four months. In addition to the treatment of frown lines and wrinkles Botox is also used to treat Hyperhidrosis (Excessive Sweating).

Fillers

When you look in the mirror and see your first facial wrinkles you are recognising the first visible signs of the ageing process. Facial wrinkles and creases begin to appear as the underlying collagen and elastin fibres begin to break down and wear out after the age of 25. While this breakdown is part of the natural ageing process, it can also result from excessive squinting, frowning, smoking or sun damage.

Dermal fillers can be used to improve the appearance of expression lines and scarring. These products are all hyaluronic acid based (non-animal fillers) which are used to replenish lost volume in the skin, smoothing out lines and wrinkles thus helping to erase the signs of ageing without resorting to surgery. We also offer lip enhancement and "smile boost" treatments.

Specialist skin treatment

Agera RX facial

£42

Agera RX skin peel

£59

The revolutionary proliferative peels created by Agera® Rx are non-irritating, pain free and cause no down time from skin shedding, redness or irritation. These unique treatments cause significant stimulation of the fibroblasts deep within the skin to produce new collagen and elastin. This proliferative effect on the skin's cells delivers many anti-ageing benefits without any unsightly skin shedding or redness. After only one session, the skin will look clearer, smoother and brighter. For maximum results a course of Agera® Rx skin peels can be combined with medical microdermabrasion.

The latest skin care range containing growth peptides & powerful anti oxidants for acne, pigmentation and anti aging.

Medical microdermabrasion

£79

Derma Genesis® microdermabrasion is the global leader in skin resurfacing. It uses a highly controlled flow of fine medical grade crystals to remove the dead outermost layers of skin. As a result the newer, more vibrant skin that lies below is revealed, leaving your skin feeling and looking smoother, fresher, healthier and more youthful.

Combination Microdermabrasion and skin peel

£99

These procedures are ideal for almost all skin types and are great for providing general improvement benefits. In addition microdermabrasion and skin peels are commonly used to treat and diminish fine lines and wrinkles, acne prone skin, acne scarring, blackhead and congested skin, sun damaged skin, uneven pigmentation and uneven skin texture.

Permanent Cosmetic Makeup / Medical micropigmentation

Permanent Makeup ensures you always look your best 24 hours a day – effortlessly!

This innovative procedure can last up to 2 years or more. The results can be life-changing and confidence boosting. Furthermore, the technique is simple, safe and revolutionary and will enhance your natural beauty. A redeemable consultation fee of £50 is charged for all procedures.
